Description
SPAGUARD WATER CLARIFIER makes water clear and sparkling by improving filter efficiency without affecting pH. Cloudy water is often caused by small particles not removed by the filter. SpaGuard Water Clarifier aids the filter in removing these particles, restoring water clairty.

Measurement and Dosing:

Use all level measurements. 2 tablespoons per 300 gallons; 4 capfuls per 300 gallons; 1 fl oz per 300 gallons

Directions for Use:

1. Add 2 tablespoons or 4 capfuls of SpaGuard Water Clarifier per 300 gallons of

water once per week
2. Repeat treatment after 24 hours if spa water is dull or cloudy
3. Rinse filter after each use of clarifier, and use SpaGuard Filter Cleaner once every 30 days

Other information or uses:

TO HELP MAINTAIN CLEAR WATER, add 1 tablespoon or 2 capfuls of SpaGuard Water Clarifier per 300 gallons of water once per week

IMPORTANT:

For best results, never add more than recommended dose at any single time. Wait at least 24 hours before repeating treatment
