

## Balance Pak 100 - 25 lbs

**Brand:** Bioguard

**Product Code:** 23465BIO

**Availability:** In Stock

**Weight:** 0.00oz

**Dimensions:** 0.00ft x 0.00ft x 0.00ft

**Price:** \$43.99

### Description

25 lbs - Balance Pak 100

### What it does

Balance Pak<sup>®</sup> 100 is used to maintain total alkalinity in swimming pool water. Proper alkalinity prevents pH from changing due to rain, bather load, and other chemical application.

### Features

- 100% sodium hydrogen carbonate
- pH 8.2
- Compatible with chlorine, bromine, Mineral Springs<sup>®</sup>, saltwater and SoftSwim<sup>®</sup> systems
- Powder form

### Benefits

- Raises total alkalinity
- Prevents pH change
- Improves swimmer comfort
- Prevents corrosion due to improper pH
- Protects vinyl liners from wrinkling due to improper pH

**Directions for Use**

**Directions for Use**

1. Add directly to pool with pump running.
2. If large amounts are required (more than 4 lbs. per 10,000 gallons) and metals are present, divide dosage into thirds and pre-dissolve before addition.
3. Follow ALEX<sup>®</sup> Pro instructions for amount of product based on your sanitizer type and other test factors.

**ADDITION CHART**

POOL CAPACITY (gallons)	POUNDS REQUIRED TO RAISE TOTAL ALKALINITY					
	30 ppm	40 ppm	50 ppm	60 ppm	80 ppm	100 ppm
10,000	4	6	7	9	12	15
15,000	6	9	11	13	18	22
20,000	9	12	15	18	24	30
25,000	11	15	19	22	30	37
30,000	13	18	22	27	36	45
40,000	18	24	30	36	48	60
50,000	22	30	37	45	60	75
