### Description

6 lbs - Balance Pak 200

### What it does

Balance Pak<sup>®</sup> 200 raises pH.

### Features

- 100% sodium carbonate, Soda Ash
- Powder form
- Raises pH
- Compatible with chlorine, bromine, Mineral Springs<sup>®</sup>, saltwater and SoftSwim<sup>®</sup> systems.

### Benefits

- Improves swimmer comfort
- Protects pool equipment from corrosion due to improper pH

**Directions for Use****Directions for Use**

1. If pH is below 7.2, apply Balance Pak<sup>®</sup> 200 as determined by ALEX<sup>®</sup> Pro instructions or the Alkali demand chart in test kit.
2. Apply by broadcasting product evenly across the pool with the pump running.
3. Circulate for 2 hours and retest pH.
