Description

1 Quart - Stowaway

What it does

BioGuard[®] Stow-Away[®] makes pool opening easier by allowing swimming pool covers to be stored wet. Stow-Away[®] cleans and deodorizes your swimming pool cover and prevents it from sticking together when folded. This product may be used on other pool-side accessories and solar blankets during the off-season.

Features

- Quat based formula
- pH~7.0
- Compatible with chlorine, bromine, Mineral Springs[®], saltwater and SoftSwim[®] systems

Benefits

- Eliminates odors on swimming pool covers
- Prevents covers from sticking together when stored
- Extends the life of most pool covers
- Allows covers to be stored wet
- May be used to clean and store other pool-side items

Directions for Use

Directions for Use

1. While cover is still on pool, remove all debris and water from cover.
2. Remove cover from pool, and spread on lawn, pool deck, or driveway.
3. Spray Stow Away[®] over entire cover and brush clean.
4. Rinse off loosened soils with water.
5. Fold pool cover, squirting this product full strength between each fold.
