

Smart Shield

Brand: Bioguard

Product Code: 23762BIO

Availability: In Stock

Weight: 0.00oz

Dimensions: 0.00ft x 0.00ft x 0.00ft

Price: \$33.99

Description

1 Quart - Smart Shield

This bottle will last 3 months for a 24' round pool.

What it does

Smart Shield[®] forms an ultra thin barrier on the water's surface. This reduces evaporation, which conserves pool water. The barrier also helps the pool water retain heat without the hassle of traditional solar covers.

Features

- 1% propane-1,2-diol
- pH 6
- Compatible with chlorine, bromine, Mineral Springs[®], saltwater and SoftSwim[®] systems
- Forms an invisible barrier of the pool
- Reduces evaporation

Benefits

- Conserves water lost due to evaporation
- Preserves water temperature
- Extends the swim season
- Works up to 30 days after application

Directions for Use

Directions for Use

1. Shake the bottle before using.
2. With the pump running, add 8 oz. per 15,000 gallons.
 - For best dispersion, add in front of a pool return line
 - For larger pools, add 16 fl oz per 1,000 sq ft of surface area or 30,000 gal of pool water once per month
