Short Description

Description

Winterize, control stains, and eliminate problems next spring. Proven technology is compatible with Biguanides, Bromine, Chlorine, Copper/Silver and Ozone treated pools. Your pool will remain beautiful throughout the winter and operate at a lower sanitizer cost next season with this advanced system.

DIRECTIONS:

1. Broadcast Simple Salt Shield across the pool's surface and run pump for at least 6 hours
2. Add 1 bag of Shimmer per 10,000 gallons through the skimmer basket with the pump running and continue circulating for at least 6 hours
3. Consult your Simple Salt dealer for instructions to protect your pump and filter from freezing

CAUTION: Causes eye, skin and breathing irritation. Do not mix Shield product with any other chemicals before adding to pool water

FIRST AID:

1. Skin contact: Thoroughly wash with soap and water.
2. Eye contact: Flush with large amounts of water, lifting lids. Get medical attention
3. If swallowed: Induce vomiting, get medical attention
4. If inhaled: Move to fresh air, administer artificial respiration. Get medical attention
