Weight: 0.00lb

Dimensions: 0.00in x 0.00in x 0.00in

Price: \$129.95

Description

Includes: 1 @ease Swim Spa Mineral Cartridge, 1 @ease Swim Spa SmartChlor Cartridge and 1 @ease Test Strips.

A complete sanitizer exclusively for swim spas up to 3,000 gallons, FROG @ease. EPA registered, it eliminates organic contaminants 2 ways, with Sanitizing Minerals and a low level of chlorine

FROG @ease works with SmartChlor, a unique, patented chlorine that maintains a constant low chlorine level and uses up to 75% less chlorine*

SmartChlor automatically adds chlorine to meet demand, and works with Sanitizing Minerals, which also eliminates organic contaminants, condition the water for softness, and help keep pH balanced - no additional chlorine is needed, swim spa water is ready when you are!

Less chlorine means there's no smell, no skin irritation, swimsuits don't fade, surfaces are protected, and you don't have to drain and refill constantly.

SmartChlor lasts 3-4 weeks, replace easily with this Replacement Cartridge, and never touch chemicals – prefilled cartridges mean no measuring, no adding granules or powder by hand after every use, no storing open containers - it's no mess, no guess, no stress!
