

Spa Pizazz

Brand: Simple Products

Product Code: 014425960542

Availability: 10

Weight: 0.00lb

Dimensions: 0.00in x 0.00in x 0.00in

Price: \$17.99

Description

Spa Pizazz contains natural enzymes which safely breakdown organic contaminants that cause waterline rings, stains, cloudy water and clogged filters.

When used as directed, Pizazz will help eliminate the ring around the tub, body oils, cosmetics, tanning lotions, deodorants, and an endless list of organic contaminants that clog and contaminate filters. Uniquely formulated to provide maximum filter efficiency. Formulated to reduce foaming.

Spa Pizazz is designed as a reducing agent that biodegrades organics, body oils, and suntan oils. Extends the life of the filter.

Spa Pizazz works in conjunction with Chlorine, Bromine, Simple Blue Manager and Biguanide Sanitization systems.

Directions: Add 1 capful per 300 gallons of spa water per week. One (1) capful equals one (1) ounce. Heavy used spas will require treatment twice per week. For the best results dilute product in 5 parts water. Mix and dispense around spa. Follow the directions closely.

Contents: Natural enzymes, non-toxic, biodegradable and environmentally safe. Bacteria free-food grade.
