

## Balance Pak 100 - 12 lbs

**Brand:** Bioguard

**Product Code:** 23463BIO

**Availability:** In Stock

**Weight:** 0.00oz

**Dimensions:** 0.00ft x 0.00ft x 0.00ft

**Price:** \$25.99

### Description

12 lbs - Balance Pak 100

### What it does

Balance Pak<sup>®</sup> 100 is used to maintain total alkalinity in swimming pool water. Proper alkalinity prevents pH from changing due to rain, bather load, and other chemical application.

### Features

- 100% sodium hydrogen carbonate
- pH 8.2
- Compatible with chlorine, bromine, Mineral Springs<sup>®</sup>, saltwater and SoftSwim<sup>®</sup> systems
- Powder form

### Benefits

- Raises total alkalinity
- Prevents pH change
- Improves swimmer comfort
- Prevents corrosion due to improper pH
- Protects vinyl liners from wrinkling due to improper pH

## Directions for Use

### Directions for Use

1. Add directly to pool with pump running.
2. If large amounts are required (more than 4 lbs. per 10,000 gallons) and metals are present, divide dosage into thirds and pre-dissolve before addition.
3. Follow ALEX<sup>®</sup> Pro instructions for amount of product based on your sanitizer type and other test factors.

| ADDITION CHART                            |        |        |        |        |         |
|-------------------------------------------|--------|--------|--------|--------|---------|
| POUNDS REQUIRED TO RAISE TOTAL ALKALINITY |        |        |        |        |         |
| (gallons)                                 |        |        |        |        |         |
| 30 ppm                                    | 40 ppm | 50 ppm | 60 ppm | 80 ppm | 100 ppm |
| 4                                         | 6      | 7      | 9      | 12     | 15      |
| 6                                         | 9      | 11     | 13     | 18     | 22      |
