Description
6 lbs - Balance Pak 200

What it does

Balance Pak® 200 raises pH.

Features

- 100% sodium carbonate, Soda Ash
- Powder form
- Raises pH
- Compatible with chlorine, bromine, Mineral Springs®, saltwater and SoftSwim® systems.

Benefits

- Improves swimmer comfort
- Protects pool equipment from corrosion due to improper pH

Directions for Use
Directions for Use

1. If pH is below 7.2, apply Balance Pak® 200 as determined by ALEX® Pro instructions or the Alkali demand chart in test kit.
2. Apply by broadcasting product evenly across the pool with the pump running.
3. Circulate for 2 hours and retest pH.
