Brand: Bioguard
Product Code: 23471BIO
Availability: In Stock
Weight: 0.00oz
Dimensions: 0.00ft x 0.00ft x 0.00ft

Price: $21.99

Description

7 lbs - Balance Pak 300

What it does

Balance Pak® 300 is used to boost calcium hardness in swimming pool water. This product dissolves quickly with less cloudiness.

Features

- 100% calcium chloride
- Compatible with chlorine, bromine, Mineral Springs®, saltwater and SoftSwim® systems
- No pre-dissolving
- Pelletized formulation allows for faster dissolving.
- Pelletized formulation is less likely to cloud the water on application

Benefits

- For raising calcium hardness
- Inhibits corrosion of pool equipment and surfaces

Directions for Use
Directions for Use

Do not pre-dissolve. Heat is generated when the product contacts water.

1. With the pump running, broadcast evenly over the surface of the pool.
2. Add 1 lb. per 10,000 gallons to increase total hardness 10 ppm.
3. Use pool brush to brush any undissolved granules off pool surfaces.
