Description

1 Quart - Natural Result Enzyme

What it does

SpaGuard® Natural Spa Enzyme breaks down oils naturally to reduce scumline, improve water clarity, and reduce unpleasant odors. It can reduce filter maintenance and keep the spa water clear. Natural Spa Enzyme can be used weekly or as often as three times weekly for commercial spas or spas with heavy use.

Features

- Enzyme formulation breaks down oils naturally
- pH~3.0-4.5
- Compatible with chlorine, bromine, saltwater and Soft Soak® systems

Benefits

- Reduces scum line build-up and odors
- Controls cloudy water
- Improves Filtration
- Reduces maintenance time
- Keeps spa clean longer
- Compatible with all SpaGuard® Care Systems
- Contains biodegradable ingredients

Directions for Use

Directions for Use

1. Add 2 Tablespoons of SpaGuard® Natural Spa Enzyme per 100 gallons of water.
2. Pour directly into the water with the pump running and aeration off.
3. Add the recommended dosage weekly in residential spas. In heavily used spas increase frequency to twice or three times per week. Do not increase dosage.
