Description

101.5 oz - Pool Juice Phosphate Remover

What it does

This multi-benefit product also contains powerful enzymes to keep pool water and surfaces clean and a special clarifier blend to keep water sparkling clear. A capful of product is all that's needed to maintain pristine conditions and is the perfect complement to any basic pool care system.

Features & Benefits

- dialuminium chloride pentahydroxide 3-7%
- Lanthanum chloride 3-7%
- pH 3.5-5.5
- For swimming pools
- Compatible with chlorine, bromine, Mineral Springs®, saltwater, and SoftSwim® systems
- Special clarifier blend that creates extremely clear water

- Powerful enzymes for cleaning
- Phosphate reducing technology

Directions for Use

Directions for Use

1. To keep your water sparkling clear, apply this product weekly at a rate of 4 oz per 10,000 gallons of pool water.
 - *PRO TIP: 1 capful = 4 oz.*
2. Apply slowly and directly into water while walking around deep end of pool.
3. Allow pump and filter to operate for at least 12 hours after application.
