Water Tube Straps - 6 per package

Brand: KWS
Product Code: TUBESTRAP
Availability: 50
Weight: 0.00oz
Dimensions: 0.00ft x 0.00ft x 0.00ft

Price: $11.99

Description
These straps loop around the water tubes and are secured to the winter cover cable going around the above ground pool.

This is the best way to prevent wind from getting under your cover and potentially damaging the cover during wind storms.

Protect Your Cover From High Winds

Stop Wind Damage!

- Cover and cable your pool according to the Cover Manufacturer's instructions.
- Using 2 straps per tube, place loop over tube 12" - 18" from each end.
- Place tube on top of the cover along the inside of the pool wall.
- Fill tube with proper amount of water and cap.
- Place strap end over the pool wall and wrap around cover cable securing loop & hook fastener.

Package contains 6 Tube Straps - Works with 3', 6' or 8' water tubes (Water Tubes Not Included)

Average pool requires 3 -4 packages of Tube Straps and appropriate number of water tubes.
