Description
1 - Replacement Chamber for the Simple Salt System

Aboveground Pool Hybrid System

The Simple Salt hybrid system uses a very small amount of salt to aid in the release of natural minerals to purify your water. A simple once a week routine keeps your pool sparkling clear with virtually no chemicals.

Features

- Simple electronics that show you the status of the unit and pool temperature. Easy to use adjustment knob controls output of minerals.
- Natural minerals that are safe for you, your family, and our environment.
- Greatly reduces itchy skin, irritated eyes, faded swim suits, and chemical odors.
- Non-corrosive and eco-friendly to operate.
- pH neutral. Less time balancing chemicals.
- Easy to install and use!
